PERMISSION TO USE

In presenting this thesis in partial fulfillment of the requirements for a postgraduate degree from the Universiti Utara Malaysia, I agree that the University Library may make it freely available for inspection. I further agree that permission for copying of this thesis in any manner in whole or in part, for scholarly purposes may be granted by my supervisor(s) or in their absence by the Dean of the Graduate School. It is understood that any copying or publication or use of this thesis or parts thereof for financial gain shall not be allowed without my written permission. It is also understood that due recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which may be made of any material from my thesis.

Requests for permission to copy or to make other use of materials in this thesis, in whole or in part, should be addressed to

Dean of Graduate School
Universiti Utara Malaysia
06010 UUM Sintok
Kedah Darul Aman.
ABSTRACT (BAHASA MALAYSIA)

Proses tuntutan yang dijalankan secara manual di UUM adalah mengambil masa yang lama, meningkatkan kos dan amat mencabar. Proses membuat sesuatu tuntutan melibatkan banyak aktiviti seperti menyemak syarat-syarat kelayakan yang termaktub di dalam Buku Panduan Tuntutan Perjalanan, Kursus, Seminar dan Perpindahan serta mengesahkan borang permohonan yang dilampirkan bersama-sama dengan lampiran sokongan. Proses yang agak kompleks ini akan menyebabkan kelewatan dalam proses pembayaran. Oleh yang demikian, pembangunan sebuah model tuntutan adalah satu keperluan yang akan menyumbangkan kepada pembangunan sistem tuntutan berasaskan web. Objetifik kajian ini dijalankan adalah untuk mengenalpasti keperluan sesuatu proses tuntutan, mencadangkan sebuah model proses tuntutan yang ringkas serta mudah dan membangunkan prototaip sistem tuntutan berasaskan web. Sistem tuntutan berasaskan web ini bertujuan untuk memenuhi kehendak masa kini yang selari dengan keperluan sesebuah proses tuntutan dan membenarkan Jabatan Bendahari di UUM bekerja dengan lebih efisyen dan efektif dalam memenuhi kehendak penggunanya terutamanya staf UUM.
ABSTRACT (ENGLISH)

Manually claim process in current practice at UUM is time consuming, costly and very challenging. The claiming process involve a lot of activity, such as checking the eligibility condition that preserve in the claim guidelines books and verifying the application form with the supporting documents. The complexity of the manually claiming process causes the delay of the payment. Therefore, there is a need to develop a claim model that can contribute to the development of a web based claim system. The objectives of this study are to identify the requirements of the claiming process, to propose simplified model of claiming process and develop the web based claim prototype. The web based claim application is proposed to meet the business challenging in claiming process and allow the Bursar Department of UUM to work efficiently and effectively in order to satisfy their users especially the UUM staff.
ACKNOWLEDGEMENT

By the Name of Allah, the Most Gracious and Most Merciful

Alhamdulillah and thank to Allah, the Most Merciful and the Most Compassionate which has gave me the commitment and the strength to start and complete this study. With the help and permission of Allah, I succeeded in finishing this project.

I would like to express my deep and sincere gratitude to my supervisor, Dr. Haslina Mohd. and my evaluator, Dr. Jamaiah Haji Yahaya for giving me a lot of suggestions and advised in making this project successful. Their detailed and constructive comments and for their important support throughout this work really help me a lot to finish this project on time.

I wish to express my warm and sincere thanks to all my colleagues and friends especially Nursyuhada Ab Aziz, Hasniah Hassan and Yusmariani Mohd Yusoff for their help and support, with whom I shared pleasant times. Besides that, I also would like to express my gratitude to all who have directly or indirectly guided me throughout all the stages of finishing this project.

Last but not least, I wish to thank all my dearest family members, especially my dearest husband, my lovely kids, mum, dad, brothers and sisters for mentality support. Their contribution and personal sacrifices are truly appreciated and will be remembered.

CHAPTER 1

INTRODUCTION

1.1 Overview

A claim process is process of getting the payment from Bursar Department for certain purpose such as travelling claim of attending the course or seminar or any official job. The process starts when a staff fills in the claim application form, and submits the application to the head of department for approval before submitted the form to the Bursar Department with the complete supporting documents.

The claim application form needs to be filled in manually. The information of all the personal details such as the Full Name of the applicant, the Staff Number, the Identity Number, the Designation, Salary Grade, Basic Salary Amount, Home Address and the Department Name have to be filled. Beside, the information on applicant’s transportation such as the Type of the Car and the Number Plate are also needed. Moreover, the Account Bank and Email is also need to be filled in the form. A lot of information need to be filled into the form will cause a lot of time and very chaotic.

The staff also needs to submit the complete claim form with the supporting documents such as the bus tickets or the hotel bills to the department head for approval. Without the complete supporting documents, the application form will be rejected. A lot of
