PERMISSION TO USE

In presenting this thesis in partial fulfillment of the requirements for the postgraduate degree from University Utara Malaysia, I agree that University Library may make it freely available for inspection. I further agree that permission for copying of this thesis in any manner, in whole or in part, for scholarly purpose may be granted by my supervisor or, in their absence by the Dean of the Graduate School. It is understood that any copying or publication or use of this thesis or parts thereof for financial gain shall not be allowed without my written permission. It is also understood that due recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which may be made of any material from my thesis.

Request for permission to copy or to make other use of materials in this thesis, in whole or in part, should be addressed to:

Dean
College of Arts and Sciences
Universiti Utara Malaysia

ABSTRAK

Tujuan penyelidikan ini adalah untuk mengkaji keberkesananan penggunaan web intranet TM Berhad dalam menyampaian maklumat terkini dan polisi syarikat dalam menangani penghayatan anggota TM dalam kerja harian mereka dan mencadangkan satu penambahbaikan kepada system tersebut. Dalam penyelidikan ini juga anggota TM yang menggunakan Intranet telah diselidik dan keputusan menunjukan terdapat empat faktor penting mempengaruhi keberkesanan sistem tersebut. Faktornya ialah tindakbalas dan geraklaku anggota itu sendiri, system dan teknologi, interaksi interaktif dan….. Kesemua faktor tersebut telah dibincangkan secara terperinci dan sejauh mana keberkesanan dan peranan sistem intranet dalam penjanaan maklumat kepada anggota-anggota TM Berhad.
ABSTRACT

The purpose of this research is to study the effectiveness of the TM online information website in achieving the desired information dissemination in order for the staffs to acquire the necessary knowledge. The aims are to identify the effectiveness of the TM Intranet website and to provide recommendations for the future improvement of the system. In this study, staffs using the TM Intranet environment daily at their work premises were surveyed through online survey to evaluate the intranet system. About 50 staffs were targeted to participate and the respondents were only 42. Results showed that there are three main factors that influence the effectiveness of the TM Intranet website in relation to their daily work. These factors are staffs’ behavior and attitude, technology and system, and interactive applications. The paper discusses these factors in detail with an emphasis on the role of the TM Intranet website in information and knowledge dissemination for the staff in their daily work environment.
Praise to GOD the Almighty for giving me courage, ideas, patience, ability, and strength to complete this project. My utmost appreciation to my supervisor, Dr. Syazwan Abdullah for guiding the research presented in this thesis. His guidance and inventive ideas have been enormous help throughout the completion of this project. He has been a constant source of motivation and encouragement. I appreciate and thank him for his continuous support, for being always accessible and for providing invaluable feedback on my work. His encouragement helped shape the direction of my work. I do believe that without his kind guidance, the project might not complete as it is intended to be. Also my sincere appreciation to Associate Professor Dr Shuhada whose guidance was a great impact on my studies and all the lecturers who were instrumental in my quest for knowledge. I would like to give a sense of appreciation in encouraging me to further my studies that is my late father Mr S.Seenivasagam and my mother Yasotha. Not forgetting my beloved wife Umawathy and life partner who was the constant encouragement during my dull days. My warm thanks to my friends, colleagues, superiors, students and everyone who were involved directly or indirectly in this project. Your support, encouragement, collaboration and fruitful interactions help to complete the study.

CHAPTER 1

1.1 INTRODUCTION

TM Berhad is the pioneer and biggest telecommunication provider in the country as such it has to identify itself as a leader. TM Berhad is the number one telecommunication service provider in the country. With a large workforce of about 27,000 employees (extracted from the TM head quarters news release), the immense contributions of its people have accomplished high growth and achievement for the company.

In recognition TM as a responsible employer is committed to develop its people to meet the demanding challenges of the business environment. TM has continuously emphasized the need to upgrade and develop multi-disciplinary skills and competencies of its people. Various human resource development programs are constantly implemented to ensure that this philosophy is strictly adhered to.

Intranets are the identity of a company in this era of technology. A good intranet website will help to promote the company within and globally. In TM Berhad we have a company which is the leading telecommunication provider in Malaysia. With a big workforce locally and internationally TM has created an identity as a regional telecommunication provider. To remain relevant TM has embarked on variety of programs to enhance it performance and capability to face challenges in the ever changing global market.

The TM Berhad intranet website is one such initiative which will enable the staffs to identify themselves with the company. For a company to be well known among its staffs the intranet plays a very useful part in their daily needs.
The contents of the thesis is for internal user only
