ABSTRACT

This study investigates the influence of market orientation on student owned businesses performance in University Utara Malaysia (UUM) main campus. The objectives of the study were 1) to examine the level of market orientation that being practice by students own business in UUM and 2) to determine the relationship between market orientation and business performance among small business in UUM. This study used market orientation itself and its elements that are 1) customer orientation, 2) competitor orientation and 3) inter-functional coordination to find the relationship with business performance and its elements which is profit and sales. Data from 44 students' own businesses in UUM were used to test the relationships and hypothesis level of market orientation with its element by using mean and correlation analysis. Furthermore, the data of the respondents also being used to find the relationship between market orientation and business performance by using multiple regression analysis. From the correlation and multiple regression analysis, the result indicates that the level of market orientation that being practice by student own business in UUM are in a moderate level. Moreover, student own business in UUM are also implementing overall market orientation in their business which can leads them to a better performance in future. Recommendations to improve students' owned businesses were also discussed.
ABSTRAK

Kajian ini meneliti pengaruh orientasi pasaran terhadap prestasi perniagaan pelajar yang membuka perniagaan sendiri di kampung utama Universiti Utara Malaysia (UUM). Tujuan kajian ini adalah 1) untuk menguji tahap orientasi pasaran yang diambil oleh mahasiswa yang membuka perniagaan sendiri di UUM dan 2) untuk menentukan hubungan di antara orientasi pasaran dan prestasi perniagaan mahasiswa yang membuka perniagaan di UUM. Penyelidikan ini menggunakan orientasi pasaran dan elemen-elemennya iaitu 1) orientasi pelanggan, 2) orientasi pesaing dan 3) koordinasi fungsi dalam untuk mencari hubungan di antara prestasi perniagaan yang diukur menggunakan keuntungan dan jualan mereka. Untuk mengkaji perhubungan di antara pembolehubah-pembolehubah tersebut, kutipan data daripada 44 orang pelajar yang membuka perniagaan sendiri di UUM digunakan untuk menguji hipotesis tahap orientasi pasaran mereka. Hipotesis ini diukur dengan menggunakan analisa mean dan korelasi. Selanjutnya, data daripada responden juga digunakan untuk mencari hubungan di antara orientasi pasaran dan prestasi perniagaan dengan menggunakan analisis regresi berganda. Daripada hasil datatan analisis korelasi dan analisis regresi berganda, menunjukkan bahawa tahap orientasi pasaran yang diambil oleh pelajar yang mempunyai perniagaan sendiri di UUM masih berada dalam tahap yang sederhana. Selain itu, datatan kajian juga menunjukkan bahawa pelajar-pelajar ini telah mengaplikasikan orientasi pasaran secara keseluruhan, dan ini akan membuka jalan untuk mereka terus maju dalam membangunkan prestasi perniagaan mereka. Disamping itu, cadangan untuk meningkatkan prestasi pencapaian perniagaan yang dijalankan oleh pelajar-pelajar UUM ini juga di perbincangkan di dalam kajian ini.
ACKNOWLEDGEMENTS

To Allah be the glory for all the things He has done. Firstly, I would like to thank Allah SWT for granting me the strength, wisdom, and knowledge to complete this project paper. I would never make it without Allah’s love. I would like to extend my gratitude and thanks to many individuals who played a significant role in this research study.

Firstly, I would like to extend my thanks to Prof. Madya Dr. Nor Azila bt Mohd Noor, my beloved supervisor, and Mr. Mohammad Zainol Abidin b. Adam, as my examiner for their generous supportive ideas and assistance that had made my thesis report success. Without their guidance, support, and valuable suggestion my thesis wouldn’t be a meaningful and useful report for me. I am really blessed to have an excellent supervisor and examiner like them.

My very special gratitude is also extended to my family especially my father, Mr Ghazali Rahmat and mother, Mrs Siti Mariam Abdullah who had been supporting me always with their motivating and encouraging words, their never ending love and prayers. To my siblings Nuur Habibah Ghazali, Muhammad Zubair Ghazali, Nuur Izzahtul Hani Ghazali, Muhammad Muaz Ghazali and Nuur Fahima Husna Ghazali, thank you for the joy, happiness, and encouragements.

Special thanks to Muhammad Aizat Rosman who is always being there when I needed him most. I really treasure your honest opinions and encouragements that have put me through good and bad times. Also, I would like to extend my deepest thank to my friends, Nabila Mohd Fisol, Maizatul Wahidah Mohd Roslan, and Sukma Pea for their kindness to help me pass my study.

Last but certainly not least, my best regards and thanks is extended to everyone who participated directly or indirectly in completing this project paper. Thank you for all your scratches in the painting of my life. Your supports and assistances will always be remembered. Thank you all.
