(Graduate School)
Universiti Utara Malaysia

PERAKUAN KERJA KERTAS PROJEK
(Certification of Project Paper)

Saya, yang bertandatangan, memperakukan bahawa
(I, the undersigned, certify that)

MOHD HANIZAN BIN HALIM

calon untuk Ijazah

(candidate for the degree of)

Sarjana Sains (Teknologi Maklumat)

telah mengemukakan kertas projek yang bertajuk

(has presented his/her project paper of the following title)

**PERSONAL KNOWLEDGE MANAGEMENT : THE NEW APPROACH FOR POST
GRADUATE STUDENTS TO IMPROVE THEIR LEARNING SKILLS**

seperti yang tercatat di muka surat tajuk dan kulit kertas projek
(as it appears on the title page and front cover of project paper)

bahawa kertas projek tersebut boleh diterima dari segi bentuk serta kandungan,
dan meliputi bidang ilmu dengan memuaskan.

(that the project paper acceptable in form and content, and that a satisfactory
knowledge of the field is covered by the project paper).

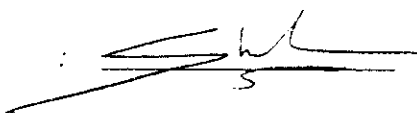

Nama Penyelia

Prof. Madya Shahrum Hashim

PERMISSION TO USE

In presenting this in partial fulfillment of the requirements for a postgraduate degree from Universiti Utara Malaysia, I agree that the University Library may make it freely available for inspection. I further agree that permission for copying of this thesis in any manner, in whole or in part, for scholarly purposes may be granted by my supervisor or in their absence, by the Dean of the Graduate School. It is understood that any copying or publication or use this thesis or parts thereof for financial gain shall not be allowed without my written permission. It is also understood that due recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which be made of any material from my thesis.

Requests for permission to copy or to make other use of materials in this thesis, in whole or in part, should be addressed to:

**Dean of Graduate School
Universiti Utara Malaysia

Kedah Darul Aman**

ABSTRAK

Kajian ini mengkaji pembangunan pengurusan peribadi. Ia cuba melahirkan satu rangkakerja konseptual untuk menguruskan segala maklumat. Kajian ini tertumpu kepada pelajar-pelajar Ijazah Sarjana di Universiti Utara Malaysia. Data yang diperolehi daripada soalelidik ini di analisa dengan menggunakan perisian komputer SPSS versi 10. Model ini diubahsuai daripada model yang dibangunkan sebelum ini dan disesuaikan dengan persekitaran Malaysia. Segala data yang dianalisa akan ditunjukkan dengan menggunakan jadual. Rumusan kajian dibuat berdasarkan hasil yang diperolehi daripada analisis dan dibandingkan dengan kajian dilakukan sebelum ini. Pada akhir kajian, penulis akan membangunkan satu model untuk membantu pelajar menguruskan data secara lebih berkesan lagi. Model ini diberi nama “Personal Knowledge Management Wheel Model”. Model ini bertindak sebagai satu panduan yang boleh diikuti oleh para pelajar di dalam membantu mempertingkatkan kemahiran pembelajaran mereka. Selain itu, model ini juga bukan sahaja tertumpu kepada pelajar, malah ia juga dapat digunakan oleh para pensyarah, guru atau sesiapa yang terlibat secara langsung didalam bidang pendidikan.

ABSTRACT

This thesis is a study on the development of personal knowledge management, how it is developed as a conceptual framework to organize and integrate information. The research done is hoped to assist the postgraduate students and others in the academic field to manage large volumes of the often conflicting information available in variety of format. At the end of the research the writer comes out with a model to help students and others on how to manage the large volume information effectively. It is hope that the thesis does not only assist the postgraduate students in UUM but to all level of degree in higher institutions in Malaysia. The model name is Personal Knowledge Management Wheel Model. The data collection method involved distributing 100 sets of questionnaires to the students. Using SPSS 10 the analysis is focused towards developing tables to display frequency counts. Each table describes the finding of the question and based on the previous research, personal knowledge management.

ACKNOWLEDGEMENTS

In the Name Of Allah The Most Beneficent, The Most Merciful.....

All praise belongs to Allah Whom we worship. To Allah, I am eternally humble and grateful for all His guideline in assisting me to complete this thesis. Alhamdulillah....

Firstly, I would like to take this opportunity to thank my supervisor, Prof. Madya Shahrum Hashim who has helped me immensely throughout my effort in completing this thesis. I would also like to thank him for all his advice, encouragement, guidance and much needed support. A special thank is also dedicated to my parents for their encouragement and there much needed assistance. In addition, I would like to extend my greatest and deepest appreciation to my wife Narisa Bt. Hassan who has selflessly contributed her time, effort and ideas in ensuring the completion of the thesis. Lastly, to all those who were directly or indirectly involved, I thank you all for assisting me.

CHAPTER ONE

INTRODUCTION

Physical assets only no longer measure an organization's strength. Today, experiences and insights in other words knowledge are not housed in the 'organization' but knowledge lives in people. Knowledge is more than what a person knows or what lots of people know. It's also what the organization knowledge-gathered from the internal and external sources for years or even decades.

According to Nockols (2000) knowledge have two basic definitions of interest. The first pertains to a defined body of information that might consist of facts, opinions, ideas, theories, principles and modes or other frameworks. Nockols also stated that knowledge can also be referred to as a person's state of being with respect to some body of information. These states include ignorance, awareness, familiarizing, understanding, facility and so on.
