THE IMPACT OF MANDATORY ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARD ON ACCOUNTING QUALITY IN NIGERIA

ZAHARADDEEN SALISU MAIGOSHI (815076)

Project paper submitted to Othman Yeop Abdullah Graduate School of Business, Universiti Utara Malaysia, in Fulfillment of the Requirement for the Degree of Master of Science (International Accounting).

2014
DECLARATION

I certify the originality of ideas, analyses, conclusions and recommendations reported in this project paper to be my original work except for quotations and citations which have been duly acknowledged. I also declare that the substance of this paper has not been previously or currently submitted for any other degree or qualification at UUM or any other University.
PERMISSION TO USE

In presenting this project paper in partial fulfillment of the requirements for a postgraduate degree from Universiti Utara Malaysia, I agree that the University Library may make it freely available for inspection. I further agree that permission for copying of this project paper in any manner, in whole or in part, for scholarly purpose may be granted by my supervisor or, in her absence by the Dean of Othman Yeop Abdullah Graduate School of Business. It is understood that any copying or publication or use of this project paper or parts thereof for financial gain shall not be allowed without my written permission. It is also understood that due recognition will be given to me and to Universiti Utara Malaysia for any scholarly use which may be made of any material from my project paper. Any request for permission to copy or make other use of materials in this project paper, in whole or in part should be addressed to:

Dean,

Othman Yeop Abdullah Graduate School of Business,

Universiti Utara Malaysia,

06010 UUM Sintok,

Kedah Darul Aman, Malaysia.
ABSTRACT

This study was aimed to empirically evaluate the impact of mandatory adoption of IFRS on accounting quality in Nigeria using the publicly quoted companies. The study utilized the annual reports and accounts of 108 companies quoted in Nigerian Stock Exchange for the period of 2011 to 2012. After review of relevant literatures related to this field of study, conceptual framework was formulated and research hypotheses were developed to enable good examination of the relationship between research variables. Multiple regression analysis was employed in analyzing the data generated for the study. Based on the data analyses, the study revealed a significant increase in the value relevance of financial statement in Nigeria after the mandatory adoption of IFRS. The study found that earnings management has reduced with the adoption of IFRS as reporting standard in Nigeria and large loss recognitions have also increased in the post adoption period. Based on the research findings, the researcher recommends that developing nations should adopt IFRS as their financial reporting standard as it is capable of increasing their accounting quality. The researcher also recommends that research should be conducted to analyze why IFRS improves the accounting quality based on standard by standard, not the whole package as whole.

Keywords: Accounting quality, earnings management, IFRS, timely loss recognition, value relevance.
ACKNOWLEDGEMENT

In the name of Allah the most gracious and the most merciful. Alhamdulillahi alladhi bi niimatihi tatimmus salitu. All praise be to Almighty Allah the lord of the universe, whose blessings, mercy and guidance made it possible for me to complete this challenging journey of having M.Sc (Internal Accounting). Peace and blessings of Almighty Allah be to our noble prophet Muhammad S.A.W, members of his family, companions and those follow their path till the day of resurrection. I have to appreciate the efforts of my supervisor, Dr Siti Zabedah bt Hj Saidin for taking the pain of going through my work, making corrections and recommendations that did not only put me on the right track but also make the whole work into reality, I remain indebted to you. The efforts of my discipline and lovely parent for their spiritual and moral support, prayers and encouragement to remain firm in a good track should also be appreciated, may Almighty Allah rewards them with best among his rewards. Worth to mention the name of my competent and able governor, Engr Dr Rabiu Musa Kwankwoso, the governor of Kano state for utilizing the tax payers’ money in sponsoring my study together with thousands of Kano state indigenes to pursue their post graduate study across the globe, I say big thank you to you Sir. Let me use this medium to appreciate the untiring prayers and supports from my family members, I remain yours forever. Efforts and guidance of the academic staff of school of accountancy and the university library in providing conducive atmosphere for leaning and research throughout the period of my study should not go unacknowledged. Last but not the least, is to thank my course mates and friends both local and international in Universiti Utara Malaysia. Wa akhiri daawana anil hamdulillahi rabbil alamina.

CHAPTER ONE

INTRODUCTION

1.1 Background of the Study

General purpose reporting is a form of financial reporting in which the reporting entities prepare and present their financial statements in a manner that will address and satisfy the information needs of their diverse user groups; it enable them generate a meaningful inferences and permit informed economic decisions. The usefulness and reliance on the contents of financial reports by users of such reports depend on the quality of information provided by those financial reports (Kantudu & Tanko, 2008). Hogget, Edwards, Medlin, and Tilling, (2009) expressed that financial statements are prepared in order to communicate important information to users both within and outside the entity. Financial reports are meant to communicate to the outside world activities related to the entity’s performance, financial position, and cashflows from operating, investing and financing activities. Financial statements are used in reporting financing and investing activities at point in time, and summarized operating activities for the preceding period (Subramanyam, 2014). Decision usefulness of financial statements depends on their objectivity, accuracy, clarity, consistency and conformity with Generally Accepted Accounting Principles (GAAP), which can only be guaranteed through the complete application and compliance with relevant accounting standard (Adenola, Abdulrasheed, Titi, & Oyebola, 2012).
