Abstract

Nowadays, higher education is becoming increasingly globalized and internationalized. Malaysia today aspires to be a regional hub of higher education where internationalization is believed to be the best empowerment approach to throw the country’s higher education to world class. The number of international students studying in Malaysian institution of higher education is continuously growing. International students contribute their own success, campus diversity, campus internationalization and also economic of Malaysia. Universiti Utara Malaysia (UUM) meets the challenges of internationalization by offering learning opportunities to international students. The purpose of this study is to identify the factors that influencing international student’s decision to study in UUM. However, this study will focus only on all the international students in UUM, total 2608 international students in different education level and from different countries. This study is a quantitative research. The questionnaires were distributed to the respondent. A total of 289 international students at UUM provide feedback via the questionnaires form. Technique of regression analysis and Pearson Correlation in SPSS is used to identify the relationship and test the hypothesis. The findings of this study indicate that there is a significant and positive relationship between university reputation, pricing and promotion/advertising with decision of international student’s choosing UUM to further study.

ACKNOWLEDGEMENT

In the name of Allah, the Most Gracious and the Most Merciful

Alhamdulillah, all praises to Allah S.W.T for the strengths and His blessings in completing this thesis. I would like to thank my supervisor, Dr Shahmir Sivaraj Abdullah for guidance and constant support. His invaluable help of constructive comments and suggestions throughout the experimental and thesis works have contributed to the success of this research. Therefore, I am truly grateful for his involvement in terms of time, patience, attentions and efforts for the completion of this project paper.

I also would like to thank my sincere appreciation to my friend Pridhiv, Qusay for helping me in distribute the questionnaire to participants. Also thanks to Dr Jamal, Afidatul, Kak Zu for helping me in analysing the data. I would like to thank the participants in my survey, who have willing spend their time to answer the questionnaire. Sincere thanks to all my dearest friends for their kindness and never give up in giving me support, information and assistance in completing this study. Thank you very much for all and best of luck.

Last but not least, my deepest gratitude goes to my beloved parents, Mr. Khalid Bin Hashim and Mrs. Hamidah Bt Maarof and also my siblings, Along, Angah, Farah, Adik Teha and Fadil for their endless love, prayers and encouragement. I also would like to thank my sincere appreciation especially to Kak Yong for always supporting and encouraging me throughout my years of study. To those who indirectly contributed in this research, your kindness means a lot to me. Thank you very much.

CHAPTER ONE

INTRODUCTION

In this chapter, reviews the outline of the study. In this section, will start with the background of study then problem statement, which will describe the regarding issues of study. Next, will discuss on research objective, which is to determine what the researcher wants. After that, research questions will be discussed. Then, significant of study and definition of key terms will be emphasized. Lastly, in this chapter will highlight out the organization of chapter for the study.

1.1 Background of Study

Higher education in Malaysia has knowledgeable an increasing competition among universities and higher education institutes to attract more students both locally and internationally (Mazzarol, 1998). The competitive had pressured the higher educational institutions to look more competitive marketing strategies in order to compete in their own markets. Malaysia aspires toward position itself as a centre of educational distinction in the Asia Pacific region and in the completion, a variety of facilities and infrastructure and educational facilities have been well-known. Institute of Public and Private Higher Education and collaboration with higher education institutions abroad more actively organized to welcoming more international students to further study in Malaysia.
