ABSTRACT

Whistle-blowing occurs when an employee raises a particular concern to their employer about some fraud or illegal or unethical behaviour that affects other employees and also the organization. The effectiveness of whistle-blowing policy will certainly contribute a significant affect. The problem arises in the company as the statistic whistle-blowing policy has seen a significant decline, and whilst reports submitted did not follow procedures. The effectiveness of whistle-blowing policy was evaluated based on four independent variables of effectiveness of whistle-blowing policy that are: (a) personal viewpoint, (b) company encouragement, (c) management responsive and (d) whistle-blower protection. The objectives of this study were to examine the influence of the four factors - personal viewpoint, company encouragement, management responsive and whistle-blower protection on the effectiveness of the policy. A total of 123 questionnaires were distributed to the sample chosen for this quantitative study. Data collected were analyzed using correlations and regressions to examine the relationship between the effectiveness of whistle-blowing policy and personal viewpoint, company encouragement, management responsive and whistle-blower protection. The findings reported that all four independent variables were significantly related to whistle-blowing effectiveness. The research objectives were fulfilled more importantly this study has put for the some changes to improve whistle-blowing practices in the company.
ABSTRAK

Whistle-blowing berlaku apabila seorang pekerja menimbulkan kebimbangan khususnya kepada majikan mereka tentang beberapa penipuan atau tingkah laku yang menyalahi undang-undang atau tidak beretika yang memberi kesan kepada pekerja-pekerja lain dan juga organisasi. Keberkesanan polisi whistle-blowing sudah tentu akan menyumbang kesan yang ketara. Masalah timbul dalam syarikat sebagai statistik polisi whistle-blowing telah melihat penurunan yang ketara, manakala terdapat laporan yang dikesahkan tidak mengikut prosedur. Keberkesanan polisi whistle-blowing telah dinilai berdasarkan kepada empat pembolehubah bebas: (a) pandangan peribadi, (b) galakan syarikat, (c) responsif pengurusan dan (d) perlindungan pemberi maklumat. Objektif kajian ini adalah untuk mengkaji pengaruh empat faktor - pandangan peribadi, galakan syarikat, responsif pengurusan dan perlindungan pemberi maklumat terhadap keberkesanan polisi. Sebanyak 123 soal selidik telah diedarkan kepada sampel yang dipilih untuk kajian kuantitatif ini. Data yang diperolehi dianalisis dengan menggunakan korelasi dan terurus (regression) untuk memeriksa hubungan antara keberkesanan polisi whistle-blowing dan pandangan peribadi, galakan syarikat, responsif pengurusan dan perlindungan pemberi maklumat. Hasil kajian menunjukkan bahawa semua empat pembolehubah bebas mempunyai hubungan dengan ketara kepada keberkesanan whistle-blowing. Objektif kajian telah dicapai dan apa yang lebih penting ialah kajian ini telah meletakkan beberapa perubahan yang dapat diperbaiki dalam amalan whistle-blowing di dalam syarikat.
ACKNOWLEDGEMENTS

First and foremost, thankful and grateful to the Almighty Allah SWT, the Creator and Sustainer of this whole universe, Most Beneficent and Most Merciful for His guidance and blessing, and for granting me knowledge, patience me and perseverance to accomplish this research successfully.

I am greatly indebted to my supervisor, Puan Norizan Hj Azizan for advising me during the development of this project and keeping the project focused and directed and also for her kindness, thoughtful, encouragement and analytical assistance throughout the entire thesis session.

To all my bosses and friends at Boustead Petroleum Marketing Sdn Bhd, thank you very much for the support especially on your willingness to complete my questionnaire as respondent of this study.

Lastly, I would like to thank to my beloved wife Nazariah Mohd Deli for all the kindness support and guidance, my children’s Puteri Anissa, Putera Azwira and Putera Iman Mukhriz for encouraged me throughout my journey of education.

Thank you.

CHAPTER 1
INTRODUCTION

1.1 Overview

Whistle-blowing is the disclosure of information about misconduct reflected in an organization. Whistleblowing is the act of exposing or perceived organizational wrongdoing, by reporting it to the respective authorities (Near and Miceli, 1995). Whistle-blowing is generally associated with the ethical issues and functions as a control over negative elements that have impact on social, economic and environmental (Greenberger, 1987).

The important of whistle-blowing has a significant increase among employees. People are becoming more aware on the responsibility to prevent unethical behaviour act by subordinates or top management. Whistle-blowing policy is a company practice to prevent illegal act. Unethical behaviour, wrongdoing and fraud are become an important concerns for all organizations today. Confidential reporting mechanisms and protection and confidentiality of cases or whistle-blower are often proposed as one tool in the organizations.

1.2 Background of the Studies

Researchers such as Near and Miceli (1995), Camerer (1996) and Vogel (1992) highlighted that whistle-blowing policy and practices has grown in the last two decades. Most of their studies focused on the perception and impact of whistle-blower as well as the confidentiality of information submitted and the action taken by
