PERMISSION TO USE

In presenting this thesis of the requirements for a Master of Science in Information Technology (MSc. IT) from Universiti Utara Malaysia, I agree that the University library may make it freely available for inspection. I further agree that permission for copying of this thesis in any manner, in whole or in part, for scholarly purposes may be granted by my supervisor or in their absence, by the Dean of Graduate School. It is understood that any copying or publication or use of this thesis or parts thereof for financial gain shall not be allowed without my written permission. It is also understood that due recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which may be made of any material from my thesis.

Request for permission to copy or make other use of materials in this thesis, in whole or in part, should be addressed to:

Dean of Graduate School

Universiti Utara Malaysia

ABSTRACT

A web-based online job application has become the most useful tool to access the information about the applicant, and the applicant information is accessible at the press of a button immediately. Graduates need to work hard to get jobs that may require cost and time. Thus this study proposal to model requirement of UUM Alumni Online Jobs that provide a flexible way to access jobs. The requirement model for the alumni students would provides the alumni with the capability to input, search and receive information of jobs via the online services.

ACKNOWLEDGEMENTS

Praise and gratitude be given to Allah the Almighty for putting giving me a great strength, patience, courage, and ability to complete this project.

I am grateful to my supportive and helpful supervisors, Assoc Prof. Dr. Wan Rozaini bt Sheik Osman and Mdm. Nur Fadziana Faisal Mohamed for assisting and guiding me in the completion of this research. With all truthfulness, without them, the project would not have been a complete one. They have always been my source of motivation and guidance. I am truly grateful for their support and cooperation in assisting me all the way through the semester. I am grateful to Dr. Nor Laily Hashim for her help in making my project successful.

I would like to present my thanks to my father, my mother and all my family who have always been there for me. Finally, I would like to express my appreciations to all my friends, colleagues, Applied Science staff, and everyone who have helped me in this journey.

CHAPTER ONE

INTRODUCTION

1.1 Introduction

Most students look for jobs via the web, although some students still search and investigate in the newspaper advertisement to find the job they need. Searching for jobs is often challenging to graduate students. Today's tight economy has forced, job seekers from all disciplines to put in extra effort to land a job. Graduate students can find jobs even in the tough times, since organizations are constantly starting up, expanding, or replacing workers. There is no magic formula for finding a job. A variety of techniques and strategies may be employed, and success varies with the individual (Nonacademic Job Search for Graduates Students, 2006).

There are hundreds of sites where the alumni can post their CV online and complete an online job application. Some sites let those alumni upload existing resumes, example of (FTM UOB and etc.). The simple definition for the alumni that could to be satisfied with
