PERMISSION TO USE

In presenting this research paper in partial fulfillment of the requirements for a Post Graduate degree from Universiti Utara Malaysia (UUM), I agree that the library of this university may make it freely available for inspection. I further agree that permission for copying of this research paper in any manner, in whole or in part, for scholarly purposes may be granted by my supervisor or in her absence, by the Dean of Othman Yeop Abdullah Graduate School of Business where I did my research paper. It is understood that any copying or publication or use of this research paper or parts of it for financial gain shall not be allowed without my written permission. It is also understood that due recognition given to me and to the UUM in any scholarly use which may be made of any material in my research paper.

Request for permission to copy or to make other use of materials in this research paper, in whole or in part should be addressed to:

ABSTRACT

This study attempts to investigate the determinants of Islamic financial literacy towards retirement planning. The survey involved 230 Muslim respondents among the University Utara Malaysia, College of Business (UUM COB) staffs. All the data were analyzed through Statistical Package for Social Science (SPSS) by conducting statistical method namely, Independent Samples T-Test, Analysis of Variance (ANOVA), Pearson Correlation and Multiple Linear Regression analysis to archive the objectives of this research. The result of this study shows that the level of retirement planning of the respondents is high. The findings also revealed that there are four determinants that significantly influence towards retirement planning. Among them are goal clarity, knowledge of financial planning for retirement planning, income and gender, the result on gender shows that the male respondents have higher retirement planning compare to females.

ACKNOWLEDGEMENT

All praises and thanks are due to Allah Almighty, Lord of the universe, peace and blessing are upon Muhammad S.AW., his descendants and his companions. Alhamdulillah, with His bounties of blessings over a period of research, I am able to complete my research paper successfully. First of all, I wish to express my deepest gratefulness to my supervisor Dr. Akhmad Affandi Mahfudz for his continuous support worth advices and guidance throughout the process of completion for my research.

Moreover, a special appreciation is dedicated to my beloved family particularly my Mother Hinda Essa Liban, My aunty Safi Essa and my older sisters Fadhi and Ilham for their endless moral and financial support, prays, loves and cares. Special thanks also go to my brothers, Ahmed, Ridwan and Badri and my sisters for their joy, happiness and encouragement.

A word of thanks also is extended to all my dearest friends in sharing the information, assistance and encouragement throughout this study specially Ahmednur, Khalid, Ahmed essa, Yussuf Bashar, Mohomed dhere, Abdikani and Ismail. Finally, I also would like to express my appreciation to all individuals who involved either directly or indirectly in this study. May Allah Almighty bless and reward the kindness of everyone.

CHAPTER ONE

1.1 Introduction

This chapter covers and outlines the research plan. It designates the bases of the research. The chapter provides a clear picture on background of the research, problem statement, research objectives, and research questions, significant of the study, scope of the study and organization of the study.

1.2 Background of the study

Retirement has been considered one of the main important future life changes (Szinovacz 1980) and permanent stage that can be enjoyable experience for some and still shocking others (Marshall 2004). Particularly, retirement is a self-defined idea that can mean different things to different individuals. In other words, retirement may also be reducing the number of working hours from fulltime status, whereas others it may mean working on unpaid basis (Marshall 2004). According to Richardson (1999), retirement means stopping from paid and unpaid workplace activity. This may mean that the salary of individuals will stop directly due to retirement though their living expenditures will last and they will need continue their lives rely merely on their accumulated savings. As the key source of income is saving (Russell & Stramoski, 2011), appropriate preparation during pre-retirement planning stage is important for a protected retirement life.
