## ABSTRACT

Due to the globalization of the economy, political and society give an impact on Malaysian higher education institutions, especially public universities. The Ministry of Higher Education Malaysia had a strategy on globalizing local education through increasing the number of international students in Malaysia. While adjusting to a new culture, many of international students struggle to do so. The role of self-efficacy, perceived social support and psychological adjustment is crucial because of the differences in academic and cultural challenges when they are in Malaysia. Furthermore, the current study analysed the relationship between self-efficacy, perceived social support and psychological adjustment. A total of 150 international students from various country and nation in Universiti Utara Malaysia (UUM) completed the questionnaire survey. As hypothesized, independent variables of the study; self-efficacy and perceived social support significantly related with psychological adjustment. Implication on the findings and future research on international students are discussed.

Universiti Utara Malaysia

## ACKNOWLEDGEMENT

Bismillahirrahmanirrahim.

Alhamdulillah. Thanks to Allah SWT, with His willing, give me an opportunity to complete this master research paper.

First and most important, I would like to express my deep gratitude to my supervisor, Dr. Marlin Marissa Malek Abdul Malek. Not forgotten, Dr. Mohd Haniff Jedin, Dr. Basir Saud, Dr. Nik Ab Halim and all lecturers, doctors and professors at Ghazali Shafie Graduate School of Government. Thanks to Dr. Marlin for the continuous strong support and guidance. Besides, she has always been available when I needed help, and giving useful feedback as well as valuable suggestions. The lecturers; their guidance, insight and encouragement made writing this study an incredibly enriching learning experience.

Hence, I would like to thanks Associate Professor Dr. Samihah Khalil @ Halim, the Dean because she also contributes helps for me whenever I needed it as well as Madam Yus Asma Yusuff, Senior Assistant Registrar and all staffs at GSGSG.

Next, my gratitude goes to Associate Professor Dr. Hazry Desa, Dean, School of Business Innovation and Technopreneurship, Universiti Malaysia Perlis, for trust that he gives to me until I completed my master degree studies.

For my beloved family; my mom Puan Timah Seman and my sister Aini Suhaila Abdullah; thanks again for the support!

Besides, I also want to thank my classmates and friends which contributing their ideas, necessary information and sharing their experience and times along the process of doing this research. I'll miss you guys!

*Muhammad Fazlee Sham Abdullah*

### **INTRODUCTION**

#### **1.0 Introduction**

This chapter forms an introduction part of the research and it provides general viewing of the study, including the explanation about this research all about. This research is mainly focused on self-efficacy and perceived social support towards psychological adjustment. This chapter mainly discussed about the background of the study, problem statement, research objectives, research questions, significant of the study, scope of the study, and summary of this chapter. This research goes in-depth into self-efficacy, perceived social support and psychological adjustment aspect of international students.

#### **1.1 Background of the study**

As of today, with an ease of travelling and the business globalization, there are lot of opportunities for people to move, study, work, and doing business across countries around the world. As the advantage, it creates a cross cultural contact and opportunity among people with different background of culture. Eruption of technology, which leads to the advancement and development of the technology, caused many people involved in trading, travelling and studying across borders.
