THE INFLUENCE OF SAFETY MANAGEMENT PRACTICES TOWARDS SAFETY PERFORMANCE AMONG INSURED PERSON IN COMMUTING ACCIDENT

By

MOHAMMED AZMAN B. AZIZ MOHAMMED (808755)

Thesis submitted to
Othman Yeop Abdullah Graduate School of Business, Universiti Utara Malaysia,
in Fulfilment of the Requirement for Master of Science.
Abstract

Safety performance play the crucial role in safety management development at the workplace. It’s also contribute the main indicator to the success of accident prevention programme. This study purposely to examine the relationship between safety performance with safety management practise. Theory plan behaviour was applied to develop conceptual framework. In this study safety management practise was independent variable and safety performance was dependent variable. While the safety motivation and employees’ competency were mediating variable. Quantitative approach was applied in methodology of this study which involved 615 respondents among insured employees who involved in commuting accident. Regression analysis revealed that safety management practise, safety motivation, and employees’ competency have positive relationship significantly with safety performance. Safety motivation and employees’ competency was found mediated the relationship between safety management practice and safety performance. This study highlighted the organisation should give priority to improve their safety accident prevention programme by enhance employees’ knowledge, skills and abilities. In addition, employees; characteristics should be taken into account during the development of safety training need analysis.

**Keywords:** Safety performance, safety management practise, safety motivation and employees’ competency.
Abstrak

Kata Kunci: Amalan pengurusan keselamatan, prestasi keselamatan, motivasi keselamatan dan kompetensi pekerja.
Acknowledgement

Alhamdulillah, first and foremost all praises to Allah the most Gracious and the Most Merciful. My humble gratitude to the Prophet Muhammad (Peace be upon him) whose teaching flourished my thoughts and enlightened my heart. I am so grateful to Allah for giving me this opportunity, the strength and ability to finally complete this thesis. I must also thank the government of Malaysia and Universiti Utara Malaysia for their support in making this study possible.

I would like to express my sincere gratitude to my supervisor, Dr. Fadzli Shah Abd Aziz for providing me with great supervision, guidance and support during the entre process of this study. His valuable advice and persistent encouragement were vital in making this thesis reality.

Thanks are also due to many helful friends, in particular; En Harun Bakar, Mr Dinesh Kumar A/L Saundra Rajan, PERKESO staffs and others who involved directly or indirectly on pursuing my master. I am very thankful to all insured person for their kind cooperation by responding to this study questionnaire.

And finally, but not least, special thanks go to my wife, Datin Wahinah Bt Haroon Rasheed, my sons Muhammad Azmir, Muhammad Azfar and Muhammad Azib, my daughters Nur Wafeeqa and Nur Wafiyah for their endless love, patience and continued support throughout these difficult years of master journey. Thank you very much.
Permission to use

In presenting this thesis in fulfillment of the requirements for a post Graduate degree from Universiti Utara Malaysia (UUM), I agree that the library of university may make it freely available for inspection. I further agree that permission for the copying of this thesis in any manner, in whole or in part, for scholarly purpose may be granted by my supervisor or, in his absence, by the Dean School of Business Management. It is understood that any copying or publication or use of this thesis or parts thereof for financial gain shall not be allowed without my written permission. It is understood that due recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which may made of any material from my thesis.

Request for permission to copy or to make other use of materials in this thesis, in whole or in part, should be addressed to:

# TABLE OF CONTENTS

## CHAPTER ONE: INTRODUCTION

1.0 Introduction of the Study  
1.1 Background of the Study  
1.2 Problem Statement  
1.3 Research Questions  
1.4 Research Objectives  

## CHAPTER TWO: LITERATURE REVIEW

2.0 Introduction  
2.1 Safety Management Practise  
2.2 Safety Performance  
2.3 Safety Behaviour as safety performance  
2.4 Safety Motivation  
2.5 Employees’ Competencies  
2.6 Theoretical Development  
2.7 Conceptual Framework  
2.8 Summary
CHAPTER THREE: METHODOLOGY

3.0 Introduction 28

3.1 Hypothesis Development 28
   3.1.1 Safety Management Practise and Safety Performance 28
   3.1.2 Safety Management Practise and Safety Motivation 29
   3.1.3 Safety Motivation and Safety Performance 29
   3.1.4 Employees’ Competency and Safety Motivation 30
   3.1.5 Employees’ Competency and Safety Performance 30

3.2 Research Design 31

3.3 Operational Definition 32
   3.3.1 Safety Management Practise 32
   3.3.2 Safety Performance 32
   3.3.3 Safety Motivation 32
   3.3.4 Employees’ Competency 33
   3.3.5 Insured Person 33
   3.3.6 Commuting Accident 33

3.4 Instrument Development 33
   3.4.1 Safety Management Practise 34
   3.4.2 Safety Motivation 37
3.4.3 Safety Performance

3.4.4 Employees’ Competency

3.5 Sampling Design

3.6 Pilot Test

3.7 Summary

CHAPTER FOUR: RESULTS AND DISCUSSION

4.1 Introduction

4.2 Data Collection and Processing

4.3 Normality Test

4.4 Linearity

4.5 Descriptive Analysis

4.6 Reliability Test of Questionnaire Items

4.7 Mean of Variables

4.8 Regression Analysis and Hypothesis Testing

CHAPTER FIVE: CONCLUSION AND RECOMMENDATION

5.1 Introduction

5.2 Discussion on the Findings against Research Objectives

5.3 Implications to the Managers and Organisations

5.4 Implications to the Future Researchers

CHAPTER 1
INTRODUCTION

1.0 Introduction

Occupational safety issues become more complicated and dynamic due to various systems and operations has have been applied at workplace. According to Goetsch (2008) the application of new technologies and complicated operating systems will create the new hazard situation. Employees and employers should have more awareness of their potential hazard and threats at their workplace for the developing the safe environment. The goal of safety and health programme at the workplace totally to prevent accident and enhance safety performance. The safety culture and safety management practice play the crucial role to enhance safety performance (Griffin & Neal 2000, Zohar 2003, Goetsh 2010). Safety culture is explained through employees’ attitude and employee behaviour in the workplace, which related to theirs’ knowledge, skills and ability. It’s also indirectly reflected the organizational safety goals and performance. The safety activities and accident prevention program need employees’ and employers’ commitment and involvement (Goetsch, 2010). Due to these potential hazards at the workplace, in February 1994, Malaysia government has been inaugurated the Occupational Safety and Health Act which is a compulsory application to all industries accept shipping and arm forces. (Occupational Safety & Health Act 1994.) Thus, the employers, employees and self-employed have theirs’ own responsibilities and duties to prevent the accident at workplace.
