PERMISSION TO USE

In presenting this dissertation in partial fulfilment of the requirement for a postgraduate degree from Universiti Utara Malaysia, I agree that the University Library may make it freely available for inspection. I further agree that permission for copying of this thesis in any manner, in whole or in part, for scholarly purpose may be granted by supervisor(s) or, in absence, by Dean (Research and Innovation Officer) of Othman Yeop Abdullah Graduate College of Business. It is understood that any copying or publication or use of this thesis or parts thereof for financial gain should not be allowed without any written permission. It is also understood that due the recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which may be made of any material from my thesis.

Request for permission to copy or take other use of materials in this thesis, in whole or in part, should be addressed to:

Dean (Research and Innovation Officer)

Othman Yeop Abdullah Graduate School of Business

ABSTRAK

Lembaga Hasil Dalam Negeri Malaysia (LHDNM) telah meneroka beberapa inisiatif teknologi untuk meningkatkan penyampaian perkhidmatan atas talian kepada pembayar cukai. Perkhidmatan atas talian ini termasuk sistem bayaran cukai secara atas talian, penghantaran borang cukai secara atas talian, dan sistem taksiran dan pembayaran duti setem. Sistem atas talian Potongan Cukai Bulanan (e-PCB) adalah salah satu perkhidmatan yang disediakan oleh LHDNM untuk membantu organisasi, terutama syarikat perusahaan mikro dan kecil, mengemukakan bayaran potongan cukai bulanan bagi pekerja mereka. Walau bagaimanapun, kadar penggunaan perkhidmatan ini oleh majikan masih dianggap rendah. Punca penggunaan yang rendah ini masih belum dikenalpasti. Setakat ini tidak ada kajian khusus dilakukan untuk mengatasi permasalahan ini. Oleh itu, kajian ini dilakukan untuk mengenal pasti factor-faktor yang memberi kesan kepada niat perusahaan mikro dan kecil untuk menggunakan e-PCB.

Model kajian ini dibangunkan berdasarkan kepada teori *Diffusion of Innovation* (DOI). Tiga faktor yang digunakan dalam kajian ini ialah kelebihan relatif (*relative advantage*), kesesuaian (*compatibility*), dan kesukaran (*complexity*) terhadap niat (*intention*) perusahaan mikro dan kecil untuk menggunakan e-PCB. Ketiga-tiga faktor ini dipilih kerana sering ditemukan penting dalam kajian-kajian terdahulu.

Data primer bagi kajian ini dikumpul menggunakan soal selidik yang telah diedarkan kepada 470 perusahaan mikro dan kecil di Petaling Jaya melalui surat dan lawatan. Sejumlah 106 soal selidik telah dikembalikan dan disiapkan. Kadar maklumbalas

adalah 23%. Selepas proses pembersihan data, hanya 72 data layak untuk digunakan dalam analisis akhir.

Hasil analisis menunjukkan bahawa niat perusahaan mikro dan kecil untuk menggunakan e-PCB dipengaruhi oleh faktor kelebihan relatif dan kesukaran sistem e-PCB. Sebaliknya, faktor kesesuaian tidak mempengaruhi niat untuk menggunakan e-PCB. Analisis ini juga mendapati bahawa perusahaan kecil adalah lebih cenderung untuk menggunakan e-PCB berbanding dengan perusahaan mikro.

Hasil kajian ini boleh digunakan oleh LHDNM untuk memahami tingkah laku pengguna sasaran e-PCB iaitu perusahaan mikro dan kecil. Dengan memahami faktor-faktor ini, LHDNM boleh merancang strategi yang tepat untuk menggalakkan penggunaan e-PCB di kalangan pengguna yang akan memberi manfaat melalui penjimatan masa dan kos. Ia juga boleh digunakan oleh agensi-agensi kerajaan yang lain yang menyediakan perkhidmatan atas talian kepada majikan. Selain itu, kajian ini akan menjadi tambahan kepada kajian semasa berkaitan dengan niat untuk menggunakan teknologi dari perspektif sesebuah organisasi.

ABSTRACT

Inland Revenue Board of Malaysia (IRBM) had ventured in a number of technology initiatives to increase its online services to taxpayers. These online services include online tax payment, online tax submission, and stamp duty assessment and payment system. Monthly Tax Deduction Online System (e-MTD) is one of the services provided by IRBM to help organisation, especially micro and small enterprises, to submit Monthly Tax Deduction (MTD) for their employees. However, the usage rate of this service by the employer is still low. The reasons for the low usage are yet to be known. To-date, there are no specific studies done to overcome this problem. This study is, therefore, carried out to identify the factors that affect the intention of micro and small enterprises to use the e-MTD.

The research model is developed based on the Diffusion of Innovation (DOI) theory. Three factors, namely, relative advantage, compatibility, and complexity are hypothesised to affect the micro and small enterprises' intention to use e-MTD. These factors are selected because they were consistently found significant in prior studies of technology innovations.

Data were gathered via survey questionnaires distributed to a total 470 micro and small enterprises within Petaling Jaya district, both using mail and direct visit. A total of 106 questionnaires were completed and returned. Hence the response rate is 23%. After data cleaning process, only 72 data were eligible to be used for final analysis.

Findings of the study show that micro and small enterprises' intention to use e-MTD is significantly affected by relative advantage and complexity. On the other hand, compatibility has no significant effect on the intention to use e-MTD. The result also reveals that small enterprises are more likely to use e-MTD compared to micro enterprises.

The findings of this study could be used by IRBM to understand the behaviour of the targeted user of e-MTD, namely micro and small enterprises. By understanding the factors, IRBM can plan the right strategy to promote the e-MTD by the users which in return will be beneficial in time and cost savings. It can also be useful to other government agencies that provide online services to employers. This study adds to current literature on intention to use technology from the organisation perspective.

ACKNOWLEDGEMENT

In the name Allah, the Most Gracious and the Most Merciful. Praise be to Allah (SWT) the bracer of the world, and peace and blessing be unto Prophet Muhammad (SAW).

There are few individuals that I would like to specifically give my gratitude in the process of completing my study. They have given and shared with me their knowledge and valuable time with much hesitation. Firstly, I give my deepest gratitude to Dr Haslinda Hassan. As a supervisor, she has given me a tremendous support. All her constructive comments and suggestions are highly valuable as an input in this study. Her words of motivation also help me to persistently resist any rough edge. Secondly to my dear wife, Nadiah Hassan, and three children for their never-ending support and sacrifices starting from the first semester until the completion of this thesis.

I also extend my gratitude to the top management of Inland Revenue Board of Malaysia (IRBM) for giving me the opportunity to continue my studies and help me in getting relevant data to complete my study. Many thanks to few lecturers that had given me some valuable input through informal conversation.

Lastly to all who have been involved directly or indirectly in helping me finishing this thesis especially my course mate and my co-workers at the office. May Allah bless all of you.

CHAPTER 1 INTRODUCTION

1.1 Background of the Study

The rise of technology in Malaysia has encouraged the development of electronic services (e-services) offered by either the government agencies or private companies. The establishment of e-procurement, Internet banking facilities, and other payment portals are examples of extensive e-services in Malaysia. To cope with the emerging technology, Inland Revenue Board of Malaysia (IRBM), as Malaysia's income tax administrator, has introduced e-services, such as *e-Filing* and *e-Bayaran*, for the convenience of the public they serve. *e-Filing*, for instance, enables taxpayers to file their return form electronically. *e-Bayaran*, in contrast, provides alternative payment channel for taxpayers to pay their income taxes online. Both systems are to facilitate taxpayers to fulfil their tax obligation hassle free, thereby leading to tax compliance and increasing the tax collection amount. These e-services have provided simpler and faster taxation services and greater tax administrative efficiency. An increase in tax collection amount will contribute to the increment in the Government's revenue that is used to provide better facilities for educational purposes, better infrastructure (e.g., road maintenance and public facilities), and better health services in government hospitals.

Other than the two taxpayers' responsibilities mentioned above (filing tax return form and making tax payment), another important task for taxpayers is to submit a monthly tax deduction (MTD). This is a specific responsibility by businesses when they hire people to work for them. The most appropriate term to be used in this relationship is 'employer' for the business and 'employee' for the people that work

QUESTIONNAIRE SOAL SELIDIK

DETERMINANTS OF INTENTION TO USE ONLINE MONTHLY TAX

Dear participant,

This questionnaire is designed to study about the intention to use online monthly tax deduction system (e-MTD) among micro and small enterprises in Malaysia. Your participation is highly appreciated.

This study is conducted as a partial fulfilment for my Master of Science (International Accounting). The information you provide for the purpose of this study will be kept **STRICTLY CONFIDENTIAL** and for the academic purpose only.

Your input is highly valued. Thank you very much for your time and cooperation.

Yours sincerely,

Peserta yang dihormati,

Soal selidik ini direka untuk mengkaji tentang kecenderungan untuk menggunakan sistem potongan cukai bulanan secara atas talian (e-PCB) di kalangan perusahaan kecil di Malaysia. Penyertaan anda adalah amat diharapkan.

Kajian ini dilakukan sebagai memenuhi sebahagian daripada keperluan Sarjana Sains (Perakaunan Antarabangsa). Maklumat yang anda berikan untuk tujuan kajian ini akan **DIRAHSIAKAN** dan untuk tujuan akademik sahaja.

Maklumbalas anda amatlah dihargai. Terima kasih atas kerjasama yang diberikan.

Khairul Asyraf Bin Zainal Abidin

Master of Science (International Accounting)

Universiti Utara Malaysia

Section A: Relative Advantage of e-MTD

Bahagian A: Kelebihan Relatif e-PCB

In this section, please indicate your organisation's perception on the benefits that could be offered by the e-MTD system.

Dalam bahagian ini, nyatakan persepsi organisasi anda mengenai manfaat yang boleh diberikan oleh sistem e-PCB.

Using the scale below, please indicate your level of agreement with each of the following statements by circling the number that best reflects your organisation's opinion.

Dengan menggunakan skala seperti di bawah, sila nyatakan tahap persetujuan terhadap kenyataan-kenyataan yang diberikan dengan membulatkan pada nombor yang sesuai menurut pandangan organisasi anda.

1	2	3	4	5
Strongly Disagree <i>Sangat Tidak Setuju</i>			Strongly Agree <i>Sangat Setuju</i>	

A1.	Using the e-MTD system would improve data accuracy. <i>Menggunakan sistem e-MTD akan meningkatkan ketepatan data.</i>	1	2	3	4	5
A2.	Using the e-MTD system would improve operations efficiency. <i>Menggunakan sistem e-MTD akan meningkatkan keberkesanan operasi.</i>	1	2	3	4	5
A3.	Using the e-MTD system would make application process faster. <i>Menggunakan sistem e-MTD akan mempercepatkan proses aplikasi.</i>	1	2	3	4	5
A4.	Using the e-MTD system would reduce administrative costs. <i>Menggunakan sistem e-PCB akan mengurangkan kos pentadbiran.</i>	1	2	3	4	5
A5.	Using the e-MTD system would reduce operations costs. <i>Menggunakan sistem e-PCB akan mengurangkan kos operasi.</i>	1	2	3	4	5

Section B: Compatibility of e-MTD

Bahagian B: Kesesuaian e-PCB

In this section, please indicate the degree to which the e-MTD system is perceived by your organisation as being consistent with your organisation's existing values, beliefs, and experiences.

Dalam bahagian ini, nyatakan persepsi organisasi anda ke atas kesesuaian sistem e-MTD dengan nilai-nilai, kepercayaan, dan pengalaman sedia ada organisasi anda.

Using the scale below, please indicate your level of agreement with each of the following statements by circling the number that best reflects your organisation's opinion.

Dengan menggunakan skala seperti di bawah, sila nyatakan tahap persetujuan terhadap kenyataan-kenyataan yang diberikan dengan membulatkan pada nombor yang sesuai menurut pandangan organisasi anda.

1	2	3	4	5
Strongly Disagree <i>Sangat Tidak Setuju</i>				Strongly Agree <i>Sangat Setuju</i>

B1.	The e-MTD system would fit well our organisational beliefs and practices. <i>Sistem e-PCB akan bersesuaian dengan kepercayaan dan amalan organisasi kami.</i>	1	2	3	4	5
B2.	The e-MTD system would fit well our existing technology infrastructure. <i>Sistem e-PCB akan bersesuaian dengan infrastruktur teknologi kami yang sedia ada.</i>	1	2	3	4	5
B3.	Our organisation has a positive attitude towards e-MTD system. <i>Organisasi kami mempunyai sikap yang positif terhadap sistem e-PCB.</i>	1	2	3	4	5
B4.	The e-MTD system would be consistent with our business strategy. <i>Sistem e-PCB akan selaras dengan strategi perniagaan kami.</i>	1	2	3	4	5
B5.	Our organisation has enough technical knowledge to implement e-MTD system. <i>Organisasi kami mempunyai pengetahuan teknikal yang mencukupi untuk melaksanakan sistem e-PCB.</i>	1	2	3	4	5

Section C: Complexity of e-MTD

Bahagian C: Kesukaran e-PCB

In this section, please indicate the degree to which the e-MTD system is perceived by your organisation as relatively easy to understand and use.

Dalam bahagian ini, nyatakan persepsi organisasi anda ke atas kesukaran sistem e-MTD untuk difahami dan digunakan.

Using the scale below, please indicate your level of agreement with each of the following statements by circling the number that best reflects your organisation's opinion.

Dengan menggunakan skala seperti di bawah, sila nyatakan tahap persetujuan terhadap kenyataan-kenyataan yang diberikan dengan membulatkan pada nombor yang sesuai menurut pandangan organisasi anda.

1	2	3	4	5
Strongly Disagree <i>Sangat Tidak Setuju</i>				Strongly Agree <i>Sangat Setuju</i>

C1.	Learning to operate the e-MTD system is easy for our organisation. <i>Belajar untuk mengendalikan sistem e-PCB adalah mudah bagi organisasi kami.</i>	1	2	3	4	5
C2.	Our organisation finds it easy to get the e-MTD system to do what we want it to do. <i>Organisasi kami mendapati adalah mudah bagi sistem e-PCB melakukan apa yang kami mahu ia lakukan.</i>	1	2	3	4	5
C3.	Our organisation finds the e-MTD system easy to use. <i>Organisasi kami mendapati sistem e-PCB mudah untuk digunakan.</i>	1	2	3	4	5

C4.	Our organisation finds the e-MTD system to be flexible to interact with. <i>Organisasi kami mendapati sistem e-PCB adalah fleksibel untuk berinteraksi.</i>	1	2	3	4	5
C5.	Our interaction with the e-MTD system is clear and understandable. <i>Interaksi kami dengan sistem e-PCB adalah jelas dan mudah difahami.</i>	1	2	3	4	5
C5.	It is easy for our staffs to become skilful at using the e-MTD system. <i>Ia adalah mudah untuk kakitangan organisasi kami untuk mahir menggunakan sistem e-PCB.</i>	1	2	3	4	5

Section D: Intention to Use e-MTD

Bahagian D: Kecenderungan untuk Menggunakan e-PCB

In this section, please indicate your organisation's intention to use the e-MTD system in the future.

Dalam bahagian ini, nyatakan niat organisasi anda untuk menggunakan sistem e-MTD pada masa hadapan.

Using the scale below, please indicate your level of agreement with each of the following statements by circling the number that best reflects your organisation's opinion.

Dengan menggunakan skala seperti di bawah, sila nyatakan tahap persetujuan terhadap kenyataan-kenyataan yang diberikan dengan membulatkan pada nombor yang sesuai menurut pandangan organisasi anda.

1	2	3	4	5
Strongly Disagree			Strongly Agree	
<i>Sangat Tidak Setuju</i>			<i>Sangat Setuju</i>	

D1.	Our organisation plans to use the e-MTD system in the future. <i>Organisasi kami merancang untuk menggunakan sistem e-PCB pada masa hadapan.</i>	1	2	3	4	5
D2.	If possible, our organisation will try to use the e-MTD system. <i>Jika boleh, organisasi kami akan cuba menggunakan sistem e-PCB.</i>	1	2	3	4	5
D3.	Our organisation will try to use the e-MTD system if necessary in work. <i>Organisasi kami akan cuba menggunakan sistem e-PCB sekiranya perlu dalam kerja.</i>	1	2	3	4	5

Section E: Organisation Details

Bahagian E: Maklumat Organisasi

In this section, we ask you about your organisation.

Dalam bahagian ini, kami ingin mengetahui dengan lebih lanjut mengenai organisasi anda.

E1. In what year was your organisation established? _____

Pada tahun berapakah organisasi anda ditubuhkan?

E2. What is the legal form of your organisation? _____

Apakah jenis perniagaan anda?

Company (Sdn Bhd)

Syarikat

Partnership/sole trader

Perkongsian/Perniagaan tunggal

E3. Which type of industrial sectors is your organisation involved in?

Apakah teras perniagaan organisasi anda?

Manufacturing

Pengilangan

- Services and other sectors

Servis dan sektor-sektor lain

E4. Approximately, how many full-time employees in your organisation?

Berapakah anggaran bilangan pekerja sepenuh masa yang terdapat di dalam organisasi anda?

- 0 – 4 employees

0 – 4 pekerja

- 20 – 24 employees

20 – 24 pekerja

- 5 – 9 employees

5 – 9 pekerja

- 25 – 29 employees

25 – 29 pekerja

- 10 – 14 employees

10 – 14 pekerja

- More than 30 employees

Lebih daripada 30 pekerja

- 15 – 19 employees

15 – 19 pekerja

E5. Approximately, what was your organisation sales turnover for the last accounting period?

Berapakah anggaran hasil jualan organisasi anda bagi tahun kewangan terakhir?

- RM0 – RM299,999

RM0 – RM299,999

- RM2,100,000 – RM2,999,999

RM2,100,000 – RM2,999,999

- RM300,000 – RM1,199,999

- More than RM3,000,000

RM300,000 – RM1,199,999

Lebih daripada RM3,000,000

RM1,200,000 – RM2,099,999

RM1,200,000 – RM2,099,999

E6. What is your present job position in your organisation?

Apakah jawatan anda sekarang?

Owner/Director/Partner

Pemilik/Pengarah/Rakan kongsi

Manager

Pengurus

Executive

Eksekutif

Non-executive

Pegawai sokongan

Others (please specify:)

Lain-lain

**THANK YOU VERY MUCH FOR YOUR VALUABLE TIME AND
SUPPORT.**

TERIMA KASIH ATAS MASA DAN SOKONGAN ANDA.

e-PCB

Sistem Penggajian Berkomputer yang amat mudah dilaksanakan untuk semua majikan

KELEBIHAN e-PCB (Potongan Cukai Bulanan)

1. Jimat masa dan kos pentadbiran.
2. Mesra pengguna.
3. Pengiraan PCB yang mudah, cepat dan tepat.
4. Pengiraan PCB secara automatik pada bulan seterusnya (Sekiranya tiada perubahan).
5. Boleh diakses (melalui kemudahan internet) pada bila-bila masa dan di mana jua.

6. Keselamatan maklumat dan sistem adalah terjamin.
7. Tiada risiko kehilangan data pekerja dan pembayaran.
8. Pembukuan kepada lejar pekerja lebih cepat.
9. Pembayaran PCB boleh dibuat melalui 'e-Bayaran' (FPX) tanpa kos.
10. Menyimpan serta menyemak maklumat pekerja dan pengesahan bayaran.
