PERAKUAN KERAJA KERTAS PROJEK
(Certificate of Project Paper)

Saya, yang bertandatangan, memperakukan bahawa
(I, the undersigned, certify that)

KHALID MOFTAH ABDUL HAFID
(88988)

calon untuk ijazah
(candidate for the degree of) MSc. (Information Communication Technology)

telah mengemukakan kertas projek yang bertajuk
(has presented his/ her project paper of the following title)

CUSTOM ONLINE COURSE EVALUATION
FOR IT MASTER PROGRAM AT UUM

seperti yang tercatat di muka surat tajuk dan kulit kertas projek
(as it appears on the title page and front cover of project paper)

bahawa kertas projek tersebut boleh diterima dari segi bentuk serta kandungan
dan meliputi bidang ilmu dengan memuaskan.
(that the project paper acceptable in form and content, and that a satisfactory
knowledge of the field is covered by the project paper).

ABSTRACT

Online evaluation is a way to evaluate the performance of the semester courses by students. The evaluation process is taken its vitality from being benchmark for the performance, during the current duration and the next ones. The selected respondents focus on MSC IT program in UUM. The research methodology is object-oriented approach to identify user requirements and system development. In this paper will be focused on four phase to achieve aim of this study: analysis, design, prototyping and testing. In the last phase usability testing using in depth interview will be conducted among selected international students of applied sciences faculty.
ACKNOWLEDGMENT

By the name of Allah, the most Gracious and the most merciful

First, I would like to express my appreciation to Allah the most merciful and, the most compassionate that has granted me the ability and willing to start and complete this study. I do pray to his greatness to inspire and enable me to continue the work for the benefits of humanity.

My most profound thankfulness goes to my supervisor Dr. Kang Eng Thye for his scientifically proven and creativity encouraging guidance.

Finally would like to thank all my dearest family members, especially Dad, Mum, and my great brothers and sisters. To my lecturers and friends who give me emotional support during my study
# TABLE OF CONTENTS

## CHAPTER 1

INTRODUCTION .............................................................................. 1

1.1 Introduction ........................................................................ 1

1.2 Problem Statement ............................................................ 2

1.3 Project's Objective ............................................................. 3

1.4 Scope .............................................................................. 3

1.5 Significance ...................................................................... 4

## CHAPTER 2

LITERATURE REVIEW ................................................................ 5

2.1 Definition, Objectives, functions and Categories of the course evaluation ........................................... 5

2.2 Importance of course evaluation and its influence on positive performance .......................................... 6

2.3 Types of course evaluation .................................................. 8

2.4 Limitations of traditional course evaluation ......................................................................................... 9

2.5 History of course evaluation .............................................. 10

2.6 The strengths of online course evaluation .......................................................... 11

2.7 Effectiveness and weakness of online evaluation .............................................................................. 12

2.8 Some of concepts and Methods of online evaluation assessment ....................................................... 13

2.9 Scope of course evaluation and questioner variables ........................................................................ 14

2.10 Custom online course evaluation ........................................ 16
LIST OF TABLES

4.1 1st Normalization Form ........................................................................................................ 48

5.1 Values of Effectiveness Test .................................................................................................. 70

5.2 Values of Efficiency Test ...................................................................................................... 71

5.3 Comparison between Effectiveness and Efficiency ............................................................. 72
LIST OF FIGURES

3.1 The object-oriented methodology ................................................................. 19

4.1 Use case of COCES system ........................................................................... 38

4.2 Login system sequence diagram .................................................................... 39

4.3 Record answers sequence diagram .................................................................. 40

4.4 Save records sequence diagram ....................................................................... 41

4.5 Save time records sequence diagram ............................................................... 42

4.6 Update records sequence diagram .................................................................... 43

4.7 Browse record values sequence diagram .......................................................... 44

4.8 The facets of database and Database Management System and their interaction between the application and users ................................................................. 45

4.9 Interactions during using inputs outputs of COCES ........................................ 57

4.10 Default page of COCES ................................................................................. 59

4.11 Login process for the user of COCES .............................................................. 60

4.12 Questions of general survey for COCES ......................................................... 61

4.13 Questions of Questionnaire List with Lap survey for COCES ......................... 62

4.14 Questions of Questionnaire List with Case study survey for COCES ............... 63

4.15 Questions of Questionnaire List with PBL survey for COCES ....................... 64

4.16 Display records interface COCES ................................................................... 65

5.1 Leverage of Effectiveness and Efficiency ......................................................... 72
