CHAPTER ONE
INTRODUCTION

1.1 Background of the Study

*Takaful* has gradually become one of the essential pillars of the Islamic Finance in the global world. Islamic finance is not only restricted to banking but it covers from the modern financial areas, banking products to insurance based on the *Shariah* compliant practices. Besides that, *takaful* insurance has become visible to the current economic world. *Takaful* is an Islamic alternative to conventional insurance. *Takaful* is well-known with its unique *Shariah* principles. *Takaful* has gradually become a part and parcel in the Muslim and non-Muslim communities life. The growth of *takaful* insurance industry could lead *takaful* to become one of the choices of investment to the community in today world.

According to Rating Agency of Malaysia (2017), the Malaysian insurance market will continue to grow in the coming future as it seems to be stable on its track. Rating Agency of Malaysia also said that the insurance industry has a strong fundamental of capital and regulatory, which it can bring to the development of the insurance sector in the long run.

In Malaysia, *takaful* was established in 1984 by introducing to the public through Syarikat *Takaful* Malaysia Berhad (*Takaful* Malaysia, 2017). The forming of *takaful* industry in Malaysia was split into three different stages by the Central Bank of Malaysia (Bank Negara Malaysia, BNM). The first stage was from 1984 to 1992.
